

CAPABILITY STATEMENT

Init Cyber is committed to delivering cutting-edge cybersecurity and IT solutions, leveraging a wealth of experience in both government and commercial sectors. Our expertise in managing complex compliance requirements and optimizing cloud security positions us as a valuable partner for organizations seeking to enhance their cybersecurity posture and IT infrastructure.

Init Cyber is a Cyber-AB authorized Third-Party Assessment Organization (C3PAO) delivering official CMMC certification assessments and advisory services for the Defense Industrial Base. Led by a Lead Certified CMMC Assessor (LCCA), Init Cyber brings technical precision and regulatory expertise to every engagement. We maintain strict conflict-of-interest separation between assessment and advisory clients in full compliance with CMMC program requirements, so our findings are always objective, independent, and DoD-accepted.

Core Competencies

- CMMC Level 2 Certification Assessments
- CMMC Level 2 Mock Assessments
- CMMC Advisory Services
- System Security Plan (SSP) Review & Assessment
- Plan of Action & Milestones (POA&M) Development
- CUI Scoping & Boundary Definition
- Gap Analysis & Remediation Advisory
- Evidence Review & Objective Assessment

Company Information

TIN: 84-4313826
UEI: ZBW4N28MEMG4
CAGE Code: 08K80

NAICS Codes:

541512 Computer Systems Design Services (Primary)
541611 Administrative Management & General
Management Consulting
541618 Other Management Consulting Services
541690 Other Scientific & Technical Consulting Services

Differentiators

- **CyberAB-Authorized C3PAO:** Init Cyber holds official Third-Party Assessment Organization (C3PAO) authorization from CyberAB, enabling delivery of binding CMMC certification assessments accepted by DoD.
- **Assessment Integrity, By Design:** Strict conflict-of-interest separation maintained per CMMC program and ISO 17020 requirements. Advisory and certification assessment services are never provided to the same organization.
- **Technical Depth Across the Framework:** Unique combination of program management and hands-on technical expertise across all 110 NIST SP 800-171 controls and 320 assessment objectives.
- **Credentials:** LCCA, CISSP, PMP, MBA-IT Management, Security+, Network+, Microsoft Azure and Office 365 Certifications.

Foundational Experience

- Led CMMC and NIST SP 800-171 compliance engagements for Defense Industrial Base contractors, including SSP development, gap analysis, and POA&M management.
- Conducted comprehensive assessments across all 110 controls and 320 objectives aligned to the CMMC Assessment Guide Level 2
- Directed RMF, NIST SP 800-37, JSIG, and related compliance frameworks for federal information systems across DoD and civilian agency environments.
- Led cybersecurity teams supporting DoD and CDC prime contractors on multi-million-dollar contracts, providing Information Systems Security Engineering leadership.
- Hands-on technical depth paired with GRC program experience produces SSPs, POA&Ms, policies, and procedures built for complex hybrid cloud and on-premises environments, not just checkbox documentation.
